

DON'T

**leave
running
washing
face or
brushing**

**water
while
your
shaving or
your teeth.**

Typical Water Use Habits In The Bathroom

TEETH BRUSHING	2 Gallons (tap running)
HAND WASHING	2 Gallons (tap running)
SHAVING	3–5 Gallons (tap running)
TUB BATHING	36 Gallons (full)
TOILET FLUSHING	5–7 Gallons
SHOWERING	20–40 Gallons (5 gallons per minute)

**Unused running water is like connecting the drain to your tap!
Those few gallons a minute can add up to a lot of wasted water.**
